

## Facilities Management Solutions

# Egress Assessments

At FMS, we specialize in comprehensive egress assessments to ensure your facilities are fully compliant with safety standards. Our expert team will provide a detailed report and actionable strategies to enhance the overall safety of your premises.

## Objectives:

**Identify Potential Egress Hazards:** Thoroughly inspect and assess all egress routes for potential hazards

**Ensure Compliance:** Ensure all egress paths comply with local, state, and federal safety regulations

**Enhance Safety Measures:** Recommend improvements and strategies to optimize egress safety

## Focus Areas

- **Egress Routes:** Evaluate the clarity, accessibility, and adequacy of all exit routes
- **Signage and Lighting:** Check for proper installation and exit lighting functionality
- **Obstructions:** Identify and remedy any obstructions that could impede egress
- **Emergency Equipment:** Ensure the availability and proper functioning of fire alarms, extinguishers, and other emergency equipment

## Strategies

### Comprehensive Inspections and Compliance Checks

- Conduct detailed inspections of all egress paths and associated components while cross-referencing findings with applicable safety standards and regulations

### Custom Recommendations

- Maintain customer trust by safeguarding personal information and demonstrating a strong commitment to security

### Training and Drills

- Develop and conduct training programs and emergency drills for staff

## Deliverables

- Detailed Assessment Report
- Compliance Checklist
- Action Plan
- Training Materials

## Benefits

- Enhanced Safety
- Regulatory Compliance
- Risk Mitigation
- Peace of Mind
